Information Regarding Certification As an NGC Environmental Master Consultant.

“How do I get from here to being an
NGC Environmental Master Consultant?”

The NGC Environmental School consists of four courses --- each course providing ten (10) hours of the required forty (40) hour program plus a two-hour field trip. The school is open to any affiliated garden club member and is open to non-members (such as a spouse or interested citizen) on a space-available basis.

Upon completion of all four courses by a member with a passing grade on all tests of 70% or better, one becomes an Environmental Consultant. The consultant status may be maintained by attending an additional course or a refresher by the end of the fifth year following the last course or refresher event.

One becomes a Master Consultant by successfully refreshing four times at any of the four courses or refreshers, paying all fees, and completing the application for Master Consultant status.

Think globally, Act locally,
Think locally, Act globally,
But most of all

Feel and Act personally!
